

# Environmental Policy Statement

FedBucks is a federation of 47 Practices covering a population of over 485,000 patients across Buckinghamshire. As a GP Federation, we are proud to represent our member practices and to champion primary. We are dedicated to providing safe and compassionate care to our patients across our range of planned and unplanned healthcare services in Buckinghamshire.

Patients are at the heart of everything we do, and we pride ourselves in our purpose when enabling excellent patient care and supporting general practice.

FedBucks recognises the need to ensure we delivery our patients while seeking to minimise our enviromental impact. This policy statement sets out our commitments on improving enviromental performance.

## Objectives

- To achieve Net Zero by 2050.
- To be zero to landfill by 2030.
- To be leaders in sustainable primary care.

## Commitments

- Comply with applicable legal obligations.
- Work with our partners and supply chain to identify and reduce the enviromental impact of our services.
- Seek to set and monitor enviromental targets that deliver meaningful change.
- Engage our staff and offer training and support to enable them to support & deliver our enviromental goals.
- Continually review the options for electrification of our fleet.
- To supply our sites, under operational control with renewable electricity.

The delivery of these objectives and commitment, are considered the minimum. They will remain under constant review, to ensure they are delivering the most sustainable primary care services for our partners and patients.

This policy applies to all FedBucks employees and contractors and will be available on our website.
